

# Abdalla Mohyeldin

English Instructor

I made my official entry in teaching after passing CELTA months ago. It was an immensely rewarding experience. Currently I teach at Oxford English academy in Cairo.

- Communication Skills
- Classroom Management
- Language Proficiency
- Interpersonal skills
  
- Problem-solving
- Adaptability
- Communication
- Attention to detail

## Languages

- Arabic
- English
- French
- Turkish

## Work Experience

### Private tutor , private (Self-Employed)

February 2024

The first and most fruitful tutoring experience I had was with a female pharmacist who was planning on moving to England and, therefore, she planned on taking the IELTS. I helped her during her preparation and she obtained a band score of 7. I believe this was my initial initiation in the teaching career.

### English Instructor, Oxford English academy , Cairo

June 2024 - Present

I teach the oxford curriculum at the academy. I apply what I learned during CELTA using the most modern teaching methods, which are praiseworthy for many reasons, on top of which the fact they are Student-centered. Also, having been dealing with young children for the last 6 month has definitely contributed to my personal and, naturally, my professional experience, for dealing with kids and learning how to deal with them is some tricky challenge at start, but once one gets the hang of it, it becomes as easy as tiding one's bed.

### Translator , self-employed (Self-Employed)

September 2020

I did some French to Arabic and vice versa, literary translation. I focused on how to transfer the core meaning using literary tools from the culture of the target language. An experience I'm proud of indeed.

## Education

### Bachelor Degree , Faculty of arts English department

October 2017 - July 2021

For four years I studied within the walls of faculty of arts, the arts of English language, literature and linguistics. There I found my vocation for poetry and literature in general. I didn't just learn the art of conversing in a different language, but the art of creating something with different cultural and lingual tools , without losing my cultural identity nor my personal fingerprint .I also discovered my passion for teaching and benefiting others in general with the knowledge I acquired and will acquire with the help of God , and the sense of responsibility to learn how to pave the way for the knowledge I want to share to get to the learner with the least amount of spillage, hopefully.

## **CELTA course experience ( April2024)**

A revolutionary experience by all means. I had my eyes opened during that full-time face-to-face intensive course. When I truly want to describe the impact this experience had on me I say: Before CELTA, my language knowledge was like a huge water reserve that I couldn't truly make use of, now I'm proud to say I can and will benefit myself and others with my language skills and my knowledge of it. The extent of CELTA's impact on me didn't stop at the professional aspect, it included my personal life as well, and even my projects for parenthood. I am very optimistic that following a sons-centered approach in raising my kids will deliver the ripest of fruits.

### **Hobbies**

---

I'm an avid reader and a passionate book collector, I enjoy writing, especially poetry, in Arabic, English and French.
