## Profile

---

I am an enthusiastic and qualified graduate in biology and biotechnology, with a deep understanding of living organisms and their applications in solving real-world problems. I have gained valuable experience through coursework, research projects, and working in laboratories, where I possess proficiency in basic laboratory techniques, data analysis, and accurate record-keeping. I am eager to contribute to research and development within a collaborative laboratory environment, focusing on ensuring smooth laboratory operations and compliance with safety protocols to achieve impactful scientific results.

## Education

---

**Bachelor of Science in Biology & Biotechnology** **2024**

American university of Madaba

**AL JUBEIHA SECONDARY SCHOOL** **2017**

## Experience

---

**Research projects** **2024**

- I worked on a project “Effect of simulated microgravity on the antidiabetic properties of wheatgrass (*Triticum aestivum*) in streptozotocin-induced diabetic rats”.
- Gained experience in designing and conducting scientific experiments.
- I Followed scientific protocols meticulously during the experiments.
- I Performed plant extraction at the appropriate times to improve the quality of the final results.

**Receptionist** **2021-2023**

- Greeted incoming visitors and customers professionally and provided friendly, knowledgeable assistance.
- Confirmed appointments, communicated with clients, and updated client records.
- Resolved customer problems and complaints.
- Handled cash transactions and maintained sales and payments records accurately.

## Certificates

---

- ECG Interpretation Course
- Basic of Suturing and Injection administration course

## LANGUAGES

---

- Arabic. Native language
- English. Intermediate| B1

## Skills

---

- Sample Preparation
- Microscopy techniques
- Lab Safety Protocols
- Sterilization techniques
- Molecular Biology Techniques
- DNA & RNA Sequencing Knowledge
- Teamwork
- Customer Service
- Office (ppt, word)
- Communication skill
